## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claim 1, drawn to a sensor, classified in class 324, subclass 207.13.
  - II. Claim 2, drawn to a washing machine, classified in class 68, subclass23.3.
  - III. Claims 3-5, drawn to a chair, classified in class 297, subclass 344.1.
  - IV. Claims 6 and 7, drawn to a table, classified in class 248, subclass 634.
  - V. Claim 10, drawn to a computer pointing device, classified in class 345, subclass 167.
  - VI. Claim 11, drawn to a container for holding an irregularly shaped object, classified in class 269, subclass 216.
- 2. The inventions are distinct, each from the other because of the following reasons:

Inventions I-VI are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions including a washing machine, a steering wheel, a chair, a table, a door, a computer mouse and a holder for irregularly shaped objects are unrelated.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 3683

3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A – Figures 1 and 2

Species B – Figures 3A and 3B

Species C - Figures 4A and 4B

Species D – Figures 5A and 5B

Species E – Figure 6

Species F – Figure 7

Species G – Figure 8

Species H – Figures 9 – 10C

Species I – Figure 11

Species J – Figures 13 and 14

Species K – Figures 16 - 18

Species L – Figure 19

Species M – Figure 20

Species N - Figure 21

Species O – Figures 22 and 23

Species P – Figure 33

Species Q – Figure 34

Species R – Figure 35

Species S – Figures 36A, 36B, 37A and 37B

Application/Control Number: 10/647,554

Art Unit: 3683

Species T -Figures 38A and 38B

Species U - Figures 39-41C

Species V – Figure 42

Species W – Figure 43

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

the prior art, the evidence or admission may be used in a rejection under 35

U.S.C. 103(a) of the other invention.

4. A telephone call was made to Michael M. Gnibus on September 19, 2004 to

request an oral election to the above restriction requirement, but did not result in an

election being made.

Applicant is advised that the reply to this requirement to be complete must

include an election of the invention to be examined even though the requirement be

traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Melanie Torres whose telephone number is (703)305-

0293. The examiner can normally be reached on Monday-Friday, 6:30 AM - 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Jack Lavinder can be reached on (703)308-3421. The fax phone numbers

for the organization where this application or proceeding is assigned are (703)308-2571

for regular communications and (703)308-2571 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is (703)308-
